savings & investments

Putting something aside for yourself and the future?

We all work hard for our money, only to pay most of it out to mortgage lenders, credit card companies, utility companies and so on. It's all too easy to spend the rest but wouldn't it be nice to keep some for what we really want in the future?

No matter how much we have in current savings and investments we all want to make what we can save grow for the future. There are many different ways we can save and invest depending on our individual circumstances, tastes and budgets. Specialist help and advice is always advisable on the most suitable savings and investment plans including but not limited to...

- unit trusts;
- investment trusts;
- ISAs;
- insurance bonds;
- offshore bonds, and;
- investments for children and grandchildren

Dains Financial Services Ltd are independent financial advisers (IFA's) or planners. We are not restricted to the products of one company, or even to a limited panel of providers. This means that we can provide "whole market" advice and are absolutely committed to the principles of genuinely independent financial advice.

We are concerned about helping our clients to adequately plan their finances, and put in place workable strategies to achieve their goals. You should not therefore expect a quick sale, rather the beginning of an ongoing financial planning process, where we work with you as your circumstances change. We provide carefully researched, impartial advice on pensions, bonds, life, health & medical insurances, long-term care plans & Inheritance Tax schemes.

To arrange an initial free consultation please call or contact us at dfs@dains.com
